

CHECK IN OR CHECK OUT

ENOUGH OF SEASONS greetings, it's time to switch out the old and bring in the new. This year, we're looking for efficiency and finding more peace in each day. To ensure you stay ahead of this year's trends, check out our list for our *totally professional* insight.

PARKING

IN: The Junior Lot

IT'S TIME WE acknowledge the truth — the junior lot is superior to the senior lot and this is the year we'll see it. The junior lot is simple and leaving the lot is twice as fast. What more could you want?

OUT: The Senior Lot

THE AMBIGUITY OF the senior lot is overwhelming. There's staff parking, seniors and juniors clambering for a front row spot, sophomores and freshmen lining up at 7:00 a.m. for a back row spot all while Prairie Village Public Works trucks loiter for who knows why. This year, we're parking in the Junior Lot.

SOCIAL MEDIA

IN: Pinterest Shuffles

PINTEREST SHUFFLES IS an app by Pinterest that allows users to automatically make collages from Pins they find or from saved Pins. You can also browse the collages and find inspiration for your outfit, home decor or mood boards.

OUT: Snap Map

QUIT INCESSANTLY CHECKING Snap Map to see how far away your friend is when meeting up with them and instead live a life of peace without interruption. I mean, does everyone on the app really need to know you went to Hen House after school?

ARTISTS

IN: Tyler, The Creator

THIS YEAR YOU may expect to see a Tyler, The Creator album release. He has released albums every other year, with each album coming out in an odd-numbered year. Keep your Spotify playlists open as his new album will be sure to make it onto your playlist.

OUT: Rex Orange County

WITH RUMORS FLYING about Rex Orange County, a bad taste has been left in our mouths about the once-loved "Pluto Projector" singer. Plus, he's already stopped at Kansas City on tour, so he really was already irrelevant by the time his team packed up the equipment.

TRANSPORTATION

OUT: BIRD SCOOTERS

BIRD SCOOTERS ARE a sure-fire way to look like a tourist in your own city. What are you doing here and why do you need to scooter? If your destination is close enough to scooter, just walk. Don't bother with the awkward sidewalk-to-road-and-back-to-sidewalk scooter dance.

IN: MCI Airport

NOW, THE MCI airport is designed for post-9/11 security and doesn't look like a brutalist tornado shelter anymore. Instead, you can get some Bo-Lings, Meat Mitch or a slice of Buffalo State Pizza while you wait for your flight. Stop by the airport on Feb. 18 for an open house.
