SENIOR IAN FLYNN'S Frequent Friday show is an adapted version of the 1920's play "Tickless Time." A comedy based on living off of a sundial. The main characters, Tim and Eloise, stop using automatic clocks, and only rely on the sundial to keep track of time. As they live their daily lives, they realize that the sundial isn't as accurate as they previously thought. They struggle to adjust to their new schedule, but they don't want to go back to using automatic clocks.

I LOVE DIRECTING.

That's something I'm super passionate about. And the theater community is great, and I want to help foster that and keep it going for the future generations.

Why should others join theater?

[THE CAST] PUT

a lot of effort into [the show]. I spend hours after school working on it. The cast put so much time into memorizing lines and blogging and all of that. It's just a good way to support us and SME theater.
